            Note: The following chronology is an attempt to provide a comprehensive overview of the 30-year relationship. Where possible, dates and events were cross-checked against several sources, but when this was not possible the event has been listed as Early, Mid or Late, or simply by the relevant month. In such cases, and as far as could be ascertained, events were placed in their likely chronological order. When discrepancies did arise as to the dates of an event, the majority of sources were considered to be correct.
